REGARDING:

MBC Systems

To Whom It May Concern:

It is a privilege to write this reference letter for Medical Network Inc. (MBC Systems). MBC Systems has been doing the billing and collections for my offices since March of 2006 and they continue to do so to date. MBC Systems is a wonderful company with great integrity and dedication to getting the job done. MBC Systems has always been there with answers to any of my questions; while keeping my collections consistent and always apprising my staff of any billing updates that would affect my offices.

I highly recommend this company for any of your billing needs, you will not be disappointed.

Should you have any questions, please do not hesitate to contact me.

Respectfully,

STEVEN NAGELBERG, M.D.
