April 23, 2018

I have been working with MBC Systems for 20 years. They have been an integral part of my business. MBC Systems is great at what they do. They have been extremely helpful in all aspects of billing and collecting- from making up billing sheets to coding for procedures-they are knowledgeable and efficient.

The billers and collectors have always been extremely professional and do an excellent job. They are always available and respond to any questions we have in a timely manner. I couldn't be happier with the service they provided me over the years.
