To whom this may concern,

I am busy spinal/orthopedic surgeon in Los Angeles and Orange County. I was very disappointed with my former medical billing company and their mishandling of my workers comp claims, that I researched until I found MBC Systems. They took over my accounts receivables, cleaned up the worker's comp messes, fixed all my old accounts receivable including outstanding med legals and old dates of service.

My time is very valuable to me so it's important to have my medical billing handled right the first time. I have found a reliable partner and the peace of mind is priceless.

A handwritten signature in black ink, appearing to read 'K Hannani', with a long, sweeping horizontal line extending to the right.
